## INTRODUCTION

Light-emitting diodes (LEDs) and laser diodes (LDs) have been attracting much attention for the application to solid-state lighting. In order to meet the rapid increase in the application fields, the discussion opportunities between the device developers and material scientists are required. We are pleased to announce that the 8th Conference on Light-Emitting Devices and Their Industrial Application (LEDIA2020) will be held at Pacifico Yokohama, Kanagawa, Japan, on April 21 - 23, 2020. LEDIA2020 provides a platform for scientists and engineers to discuss progress and future trends in the rapidly advancing science and technology of wide bandgap semiconductors for LEDs and their applications. Their applications into visible and ultraviolet LEDs and laser diodes (LDs) are also included in the scope of this meeting. LEDIA2020 is sponsored by Akasaki Research Center (ARC), Nagoya University.

## SCOPE

LEDIA2020 covers the wide-bandgap semiconductors and LED/LD technologies in the following major topical fields;

Scope1	Light-Emitting Diodes
Scope2	Laser Diodes
Scope3	Photodetectors and Solar Cells
Scope4	Epitaxial Growths
Scope5	Extended Wavelength Devices
Scope6	Novel Fabrication Processes
Scope7	Novel Characterization Methods
Scope8	Novel Materials and Devices
Scope9	Industrial Application

## OFFICIAL LANGUAGE

The official language of LEDIA2020 is English.

## Program

The conference includes invited, oral and poster sessions. The OPIC reception will be held at the evening on April 20, 2020. Latest information on the conference will be presented at the website:

<https://opicon.jp/conferences/ledia>

## SUBMISSION OF PAPERS

**Abstract deadline: January 28, 2020.**

Authors will be requested to submit **2-page** abstracts written in English, within a frame of 17 cm x 24 cm. The abstract should include author information, manuscript, figures and tables. All accepted abstracts will be published in the electronic version of the abstract book.

Original papers that have not been previously presented and that describe new technical contributions to the areas covered by the technical descriptions in the aforementioned scope will be accepted for presentation.

Papers should be submitted electronically, **no later than January 28, 2020**. Only PDF files are acceptable. A detailed instruction and the paper template are available from the following Web site:

<https://opicon.jp/submission>

## ORAL PRESENTATIONS

The time allotted to each presentation will be:

Invited Talks: 25-minute talk + 5-minute discussion.

Contributed Talks: 10-minute talk + 5-minute discussion.

## POSTER PRESENTATIONS

In addition to regular oral presentation sessions, poster presentation session will be planned to stimulate detailed explanation and discussion. The size of the poster board is 180 cm in a width and 210 cm in a height. We recommend the authors to use A0 size (84.1 cm in a width, 118.9 cm in a height) paper/cloth to prepare their posters. Necessary tools for pinning the posters will be provided. The short presentation of a few minutes will be planned prior to the poster session.

## PAPER AWARD

A few papers will be selected for the "Paper Award" for young researchers. Around 10 papers will be nominated for the award based on the program committee's ratings of the abstracts. The paper award will be judged from their presentations and announced at the closing to be held on the last day. (April 23, Thursday).
