Abstract: Abstracts with approximately 100 words must be included. The basic structure of an abstract includes a topic sentence or hypothesis (rationale) of the work, a brief description of the methods, a summary of the results, and a conclusion. The authors are asked to put keywords of 3-5 words, written in small letters but the first letter of proper noun be written in capital letter.

Keywords: imaging, scattering, fluctuation, computational imaging, adaptive optics

1. Introduction

Papers must be at least 1 page in length and also be approved by the conference chair in order to be published in the proceeding of the conference. The font should be Times New Roman. Section division is not required.

2. Title Section 1

The main text should be set in one-column format. Font size should be 10 pt. The first line of the first paragraph of a section or subsection should be left aligned. References in the text should be in square brackets [1-3].

2.1 Sub-title section 1

3. Figures, Photos, Tables, and Equations

Captions should be placed under the figures and the photos, and above the tables. Font size for the caption should be 10 pt. Figure captions should be centered and table captions should be justified.
