Welcome to the International Conference on Nano-photonics and Nano-optoelectronics, which will be held as an online conference as part of the Optics & Photonics International Congress, based in Yokohama, Japan. The development of nanoscale devices is an area of research making great strides in both academic and industrial laboratories around the world. This conference will bring together likeminded researchers working in the areas of nano-photonics and nano-optoelectronics, and will provide ample opportunities for peer-interaction, inspiring presentations, exciting discussions, and invigorating debates.

As part of the OPTICS & PHOTONICS International Congress 2023 (OPIC'23), attendees to ICNN2023 will have access to all other concurrent conferences and the exhibition. See <http://opicon.jp/> for details.
