

The 10th International Conference on Light-Emitting Devices and Their Industrial Applications LEDIA 2024

Conference Chair **Hiroshi Amano**

Nagoya University, Japan

Welcome to the 10th International Conference on Light-Emitting Devices and Their Industrial Applications (LEDIA 2024), which is one of the specialized international conferences in OPTICS and PHOTONICS International Congress 2024 (OPIC 2024).

Since 2013, LEDIA has been designed to provide a platform for active scientists and engineers to present and discuss progress and future trends in science and technology challenges of growths, fabrications, and characterizations of light emitting diodes/laser diodes, and their industrial applications. The scope of LEDIA 2024 covers the following topical fields; 1. Light-Emitting Diodes, 2. Laser Diodes, 3. Photodetectors and Solar Cells, 4. Epitaxial Growths, 5. Extended Wavelength Devices, 6. Novel Fabrication Processes, 7. Novel Characterization Methods, 8. Novel Materials and Devices, and 9. Industrial Application. Attendances will be able to receive a lot of information through discussions with speakers including invited ones. We also would like to emphasize that another aspect of LEDIA is to encourage students and young researchers to attend the conference, and to inspire their creativity through the discussions. We hope that all the attendees will enjoy the conference and will be satisfied with the discussions in LEDIA 2024.
