### ALPS2021's Objective

The 10<sup>th</sup> Advanced Lasers and Photon Sources Conference (ALPS2021) will be held on **April 19-21, 2021** at **Online Meeting**, Japan in the framework of the **Optics & Photonics International Congress 2021 (OPIC2021)**, which consists of 11 optics-related scientific conferences. In ALPS2021, we intend to discuss **the recent topics of progress in lasers and photonic science**. Specially, we expect broad research works of laser sources covering the fundamental researches to industrial applications. **ALPS2021 student paper award** will be given for the outstanding student paper presentations in ALPS2021.

### Scope of Topics

- Novel optical materials/ structure and applications
- High average power lasers and applications
- High peak power lasers, high pulse energy lasers and applications
- Novel solid state/ fiber/ diode lasers and applications
- Short wavelength light sources and applications
- Terahertz devices, nonlinear optics and applications
- Novel optical devices, metamaterials, structure and applications
- Optical devices and techniques for bio and medical applications
- Optical frequency combs/ frequency stabilized lasers and applications
- Quantum optics and their applications

The 10<sup>th</sup> Advanced Lasers and Photon Sources Conference (ALPS2021) is collocated with **OPIC2021** and Optics & Photonics International Exhibition (**OPIE'21**). 490 papers were presented in the last OPIC2020. Anyone who is registered to ALPS2021 is admitted to the other conferences of OPIC2021 and the exhibition OPIE'21. Visit <http://opicon.jp/conferences/> to find other conferences.

### Committee Chairs

Conference Chairs : **Hitoki Yoneda** (UEC, Japan), **Ruxin Li** (SIOM, China)  
Steering Committee Chair : **Fumihiko Kannari** (Keio Univ., Japan)  
Program Committee Chair : **Junji Kawanaka** (ILE, Osaka Univ., Japan)

Sponsored  
& organized by

**The Laser Society of Japan**
